The question most buyers want answered is: Where can I get the best dress, the best coat or cape, the best pair of, shoes, the best——for so much money? We have a ready answer for all the different sorts of goods that we keep. We should be very shortsighted if we did not. At all times we mean that this store shall be first in the advantages it gives to the public. When we fail in that we shall expect to lose what we got and have kept so many years in this region—

When canvassed for insurance ask the agent the questions given below. If an *affirmative answer* cannot be given to *every question*, the policy he is selling is not as liberal as the policies which

THE MASSACHUSETTS

Mutual Life Insurance Co.

is now issuing, under which a policyholder enjoys the privileges enumerated below :—

1. Can the policy be surrendered for cash on any anniversary after the first?
2. Are the cash values for each year guaranteed and written in the policy?
3. Does the policy, in case of a failure to pay a premium, after two annual premiums have been paid, become binding upon the company as a paid-up policy, *without any action on the part of the insured?*
4. Are paid-up values for each year guaranteed and written in the policy?
5. Does the policy participate in annual dividends?
6. In case a policy lapses and becomes paid-up for $100 or more, does it participate in dividends?
7. Can dividends be used each year to reduce premium payments?
8. Or, if desired, to buy additions to the policy?
9. And if used to buy additions, can these additions be surrendered on any anniversary of the policy after the first?
10. Is it the custom of the company to loan on its policies when legally assignable?
11. If loans are made, are they for as much as 90 per cent. of the cash value?
12. Are all restrictions on travel and residence removed after two years?
13. If the installment feature in paying losses is offered, can installments be made in amounts to suit the applicant?
14. Can the insured, on proper application, secure an extension of thirty days' time in the payment of premiums?
15. Are losses paid as soon as proofs of death have been presented and approved?
16. Is the policy issued under the Massachusetts Non-Forfeiture Law?

If the above list of questions is preserved, it uudoubtedly will prove an important factor in your decision as to which company you will apply to for insurance.

Fisk Mfg. Co's Japanese Soap

Is manufactured of the purest Oils and Tallow of our own refining. It is a PURE SOAP, free from the many poisonous adulterations that are put into soaps at the present day to give them weight, etc. Many persons are suffering to-day on account of using impure soaps. The Japanese is adapted to the Laundry, Toilet, and Bath. It has no equal. Patented October 11, 1875, and September 18, 1877

THE JAPANESE

FISK MANUFACTURING CO.

SPRINGFIELD, MASS.

(Registered Oct. 11. 1875.)

Fisk Manufacturing Co.'s "Extra Pale." Cut full weight. Two, three, and four pound bars. We maintain for it the justly merited reputation of being the "Best and Cleanest Bar Soap in America." Most bar soaps now in the market are composed almost entirely of rosin, poisonous and filthy grease, loaded with ground marble, silicon, pipe clay, lime, soda, caustics, etc., many being like the pressed cakes, wrapped, preventing them from drying and showing their true properties.

By using such soaps you destroy the clothes—a single garment, perhaps, costing more than a yearly supply of Fisk Mfg. Co.'s Pure Soaps, which do not yellow, rot, cut or grind the clothes.

Ask your grocer for them. Let them become hard and dry before using them. Look to their clothes-saving quality, which is true economy and cheapness.

SPRINGFIELD STREET DIRECTORY.

The Street Directory gives the location of each street, and shows what other streets, avenues or places run from or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained. As, for instance, wishing to know at what part of Main street No. 310 comes, turn to Main street, and you find that Worthington street intersects at 298, right side, and Bridge street at No. 340, showing that No. 310 comes on the right side of Main street between Worthington and Bridge.

The company attached to this apparatus are the soldiers and employees of the Armory, under the direction of the chief engineer of the fire department of the Armory. Do not respond to all alarms, but through the courtesy of the commandant we have their services in an emergency. The signal of twelve blows and repeat on the fire alarm calls this company.

Salaries of the steam engine and hose companies are as follows, per year: Engineers, $1,000; Drivers, Tillermen, Hydrantmen and Permanent Laddermen, $780; Captains, $200; Hosemen and Laddermen, $175.

RESOURCES FOR WATER.

Eight hundred and eleven public and private hydrants have been set in the city for the use of the Fire Department. There are also available forty-four cisterns. Hydrants painted red signify high service, 125 pounds pressure; those painted green low service, 40 pounds pressure.

FIRE ALARM TELEGRAPH.

Instructions to Key Holders.— Key holders, upon positive information of a fire, will unlock the box, and, if the bell or the small bell in the box is not striking, pull the hook down to the end of the slide once and let go immediately. Do not strike an alarm when the bells or the small bell in the box is striking, for in that case the alarm is already striking, and to give a second one would confuse the firemen. After giving an alarm, remain, if possible, until the steamers arrive, to direct them to the fire. If you hear no clicking sound in the box after pulling the hook, go to the next box, and give the alarm from that.

Do not give an alarm for a fire at a distance, *nor for a burning chimney*. Do not strike the alarm more than once from the same box. Be sure the box is locked before you leave it.

WARNING! BEWARE OF THE DIRECTORY MEN

who visit this city at stated intervals and, under the pretense of getting up "Business Directories," "Business Guides," etc., etc., collect hundreds of dollars—in advance if possible. Their so-called "directories" have no circulation beyond the copies carried by these swindlers.

DO NOT SIGN an order, duplicate voucher or receipt for any kind of a Directory unless it bears the name of THE PRICE & LEE CO., or some other publisher that you know to be responsible.

THE IMPROVED

Chadwick Copying Book

TRADE-MARK.

PATENTED OCTOBER 16, 1888.

These Books are made waterproof at binding and corners, and are provided with moistening pad and oil sheets, by the use of which a number of pages can be kept moist and ready for immediate use, DISPENSING ENTIRELY WITH WATER POT, BRUSH AND WET BLOTTERS. The pad is first wet with water, then placed in book, back of twenty or more sheets, and put in press until required for copying, when sheets will be found uniformly and thoroughly moist, and VERY SUSCEPTIBLE TO ANY COPYING INK.

The back of the book being waterproof prevents the moisture from working into the binding or into leaves already copied on, and by similar treatment of corners leaves do not stick together and prevent rapid handling. The paper in these books is of extra strength, so they can be readily handled without tearing.

WE MAKE ANYTHING WANTED IN THE LINE OF LETTER OR INVOICE COPYING BOOKS.

THE POLICY IS NOT "AS GOOD AS THE PHOENIX."

COMPANY . Is it an Old Line Legal Reserve Company? Is the Company purely mutual?

POLICY . . Does the policy contain in plain figures the amount of cash value which the Company will pay for it from time to time? Does the policy guarantee that, in case of lapse or non-payment of premiums, the Company will carry the insurance for the full amount for a number of years? Does the Company agree to loan you money on your policy each year? Does the policy say so?

DIVIDENDS . Does the Company pay dividends every year on the policy? Can the dividends be used every year to reduce the premium payments? Can the dividends be used every year to increase the policy? Does the policy guarantee each year the amount of paid-up insurance you are entitled to if you stop paying premiums? Will limited payment policies continue to pay dividends each year in cash, even after the policy becomes entirely paid up?

CASH-VALUE Will the cash-value of such policies continue to increase even after they are paid up? Are these increased values written in the policy?

RESTRICTIONS Are all the restrictions as to residence, occupation, and travel, removed after two years? Does a copy of the application accompany the policy, showing everything to which you signed your name? Is the policy incontestable after two years?

LOSSES . . Are losses paid at once on receipt of satisfactory proof of loss?

Unless YOU can Answer **"YES"** to each and every one of these questions the policy is not as good as you can get in the Phœnix.

Before insuring in **ANY** Company, talk with

Fisk Mfg. Co's Japanese Soap

Is manufactured of the purest Oils and Tallow of our own refining. It is a **PURE SOAP**, free from the many poisonous adulterations that are put into soaps at the present day to give them weight, etc. Many persons are suffering to-day on account of using impure soaps. The Japanese is adapted to the Laundry, Toilet, and Bath. It has no equal. Patented October 11, 1875, and September 18, 1877

THE JAPANESE

FISK MANUFACTURING CO.

SPRINGFIELD, MASS.

(Registered Oct. 11. 1875.)

Fisk Manufacturing Co.'s "**Extra Pale.**" Cut full weight. Two, three, and four pound bars. We maintain for it the justly merited reputation of being the "Best and Cleanest Bar Soap in America." Most bar soaps now in the market are composed almost entirely of rosin, poisonous and filthy grease, loaded with ground marble, silicon, pipe clay, lime, soda, caustics, etc., many being like the pressed cakes, wrapped, preventing them from drying and showing their true properties.

By using such soaps you destroy the clothes — a single garment, perhaps, costing more than a yearly supply of Fisk Mfg. Co.'s Pure Soaps, which do not yellow, rot, cut or grind the clothes.

Ask your grocer for them. Let them become hard and dry before using them. Look to their clothes-saving quality, which is true economy and cheapness.
